## Manage Claims, Centralize Discovery and Control Legal Costs

It is never more important to get everyone on the same page than when you're managing insurance claims and litigation. Insurance companies and their counsel need a partner they can trust to provide litigation support and e-discovery services. That's why some of the largest insurers in the nation rely on Catalyst.

## Catalyst: One of the First and Most Experienced Providers

- Catalyst's secure, central repository connects counsel from different law firms securely—anytime, anywhere
- Connect reinsurers and brokers in a seamless environment
- Manage claims efficiently and effectively with Catalyst's cross-claim management system
- Keep your data with a single provider for ironclad security and maximum cost savings
- Our technology and legal specialists partner with you to provide incisive, ongoing support

Corporations and their law firms increasingly need to deal with electronic discovery containing multiple languages. Turn to Catalyst, the leader for fluent, fast and dependable multi-language services and support.

## Manage Work Product

Catalyst lets you take control of discovery and case productions (internally or for your insured) with a central place for your counsel and employees to upload case files, pleadings, work product, briefs, expert information and billing guidelines.

## Manage Claims

Centralized document review lets you efficiently conduct due diligence review of claim files and case documents for quicker access by reinsureds and quicker payment of quarterly obligations.

## Lower Costs

Catalyst's web-based repositories and related services help insurers reduce costs, standardize processes and manage claims throughout the litigation lifecycle from processing to analytics to review, production and trial.

*"We've used Catalyst since 2004 to help manage thousands of cases. The software is great, and the Catalyst team provides the best service we have ever seen. I would strongly recommend them to anyone managing complex litigation or insurance claims."*
